EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a letter filed June 7, 2004 by Charles N. Quinn.

The application has been amended as follows: Cancel claims 59-61 and 67-79.

Allowable Subject Matter

2. Claims 62, 65, and 80-90 are allowed.

3. The following is an examiner's statement of reasons for allowance: There is no teaching or suggestion in the prior art of the claimed combination having a threaded stud coaxially located within the inner sleeve, wherein rotation of the stud results in bushing axial movement there along moving the inner sleeve radially outwardly against annular interior surfaces of the second legs, urging the second legs outwardly into tight fitting contact with the outer sleeve and sandwiching the second legs there between for unitary rotation one with another or a threaded stud coaxially located within the inner sleeve, wherein the outer sleeve extends along and in contact with the exterior of the first and second tubular members, the inner sleeve extends, substantially parallel and coaxial with the outer sleeve, along and in contact with the interior surface of the first and second tubular members within the first and second tubular members overlying juncture thereof, the inner sleeve including an axially tapered exterior surface adapted
